Gleneagles Hong Kong Hospital (‘GHKH’) is a 500-bed hospital which provides a comprehensive range of clinical services spanning more than 15 specialities, including general medicine, general surgery, orthopaedics and traumatology, gynaecology and others.

GHKH is a collaboration among three parties: Parkway Pantai Limited (‘Parkway Pantai’), NWS Holdings Limited (‘NWS Holdings’, Hong Kong stock code: 659) and the Li Ka Shing Faculty of Medicine of The University of Hong Kong (‘HKU’).

Parkway Pantai and NWS Holdings will contribute 60% and 40% of the total investment cost respectively while HKU will be the clinical partner responsible for overseeing clinical governance, professional standards, appointment of doctors, as well as training of doctors, nurses and allied healthcare staff.

Scheduled to open in late 2016, GHKH aims to leverage the best clinical and management expertise to address the healthcare needs of the Hong Kong community. It will contribute towards the nurturing of healthcare professionals in the industry, as well as the advancement of clinical and research excellence. Being an affiliate teaching hospital of HKU, GHKH will be instrumental in the training and development of healthcare professionals in Hong Kong and the region, supporting Hong Kong’s development as a regional healthcare hub.

LOCATION AND GENERAL FEATURES
Located close to a cluster of medical institutions in Wong Chuk Hang, Hong Kong, GHKH is planned to have a total gross floor area (GFA) of approximately 46,750 square metres.

SPECIALTIES
GHKH will have more than 15 specialties, which include:
- General Medicine
- General Surgery
- Orthopaedics and Traumatology
